

TAM-5

AUTOMATIC MOUNTING MACHINE

Features

- Make the irregular specimens to meet the following sample procedures by mounting methods
- Protect the edge and prevent the surface from being defected during sample process
- Widely used in metallographic laboratory
- Automatic mounting machine with the function of the in-and-out cooling system
- Suitable for all hot mounting press (thermosetting or thermoplastic material etc.)
- 4 kinds of specific moulds is selectable to meet different requirements

Technical Specification

Moulding specification(mm)	25, 30, 40, 50
Power	220V, 50Hz
Maximum power consumption	1800W
System pressure setting range	0~2MPa (Relative pressure range to sample: 0~72MPa)
Keeping time setting range	0~99mins 99 seconds
Dimensions	615*510*500mm
Cooling system	water-cooling

Standard Delivery

Name	Unit	Quantity	Remarks
Automatic Mounting Machine	unit	1	Cutting Machine
Moulds	set	Separately 1	Ø25mm, Ø30mm, Ø40mm, Ø50mm
Inlay Material	bag	1	Bakelite
Hexagon Ring Spanner	pc	1	4mm
Leaky Bucket	pc	1	
Anchor Bolt	pc	4	
Oil Pointer	pc	1	
Water-inlet	set	1	
Return Pipe	meter	3	
Instruction Manual	pc	1	
TIME Certificate	pc	1	
Warranty Card	pc	1
